portion; Tuesday fair; fresh north
winds.
Tennessee—Fair Monday, somewhat
colder in west portion; Tuesday fair.

THE LATEST.

John F. Wallace, chief engineer of the Isthmian Canal Commission, submitted to the House Committee on Interests and Foreign Commerce the results of his investigations so far as made regarding the engineering tasks necessary in the construction of the canal. Four plans are submitted, the first for the construction of a high level canal with the surface of the water ninety feet above sea level; the second is a summit level; the third, a twenty or thirty-foot level above the sea, and the fourth, a sea level with a tidal lock. It is pointed out that while a sea-level canal would be less expensive to operate and time would be saved in passing through it, its cost would be \$300,000,000, and it would not be open for traffic under fifteen years, and not completed under twenty years.

Important changes in the rules and regulations regarding steamboats have been approved by Secretary Metcalf. The changes, growing out of the agitation resulting from the Gen. Slocum disaster, throw a greater degree of safety around passengers and add materially to the expense of operation.

By agreement no character witnesses will be introduced in the hearing at Shepherdsville of the motion for bail for John R. T. Barbour, indicted for the murder of Francis J. Hagan. It is said that Robert Hazel, author of the letter alleging bribery, has been located and will become a witness.

The Fourth-avenue Presbyterian congregation, after hearing a formal letter from its pastor, Dr. J. Kinsey Smith, joined with him yesterday in asking the Presbytery to approve his acceptance of the pastorate of the Shady-side church, of Pittsburg.

The Fall River Textile Council voted to submit a proposition for arbitration to the individual unions, with a view to the settlement of the strike of cotton operatives, by requesting the Civic Federation to choose a Board of Arbitration.

The Colorado Supreme Court has gone so far in the counting out of Gov.-elect Adams and the Democratic ticket that the Republicans now have control of both branches of the Legislature. That body is now dependent upon to finish the work.

The French Nationalist leader, Marcel Habert, has returned to Paris after five years' exile for being concerned in a plot to overthrow the Government. He at once resumed direction of the League of Patriots.

The Southern New England coast was swept by a storm of blizzard severity. At many points wires were prostrated, and fifteen schooners were driven ashore at Vineyard Haven. So far as known, no lives were lost.

The examination of Mrs. Chadwick in the bankruptcy proceedings is set for to-day in Cleveland, but it is stated that she will not testify. A continuance of the case will probably be requested.

Members of the First Christian church decided yesterday to vote on the offer for their property on January 22, and to meet Wednesday evening to give it formal consideration.

The beatification of Gaspard del Bufalo took place in St. Peter's yesterday. Because of the gout, the Pope was unable to walk, and was carried in the sedia gestatoria.

Members of the Jefferson Fiscal Court expect to begin work on the new armory in March and to complete it within a year, at a maximum cost of \$325,000.

At a rally of Cincinnati Methodists to welcome Bishop Spellmeyer resolutions were adopted endorsing the proposed new peace conference at The Hague.

A demonstration of 5,000 students was stopped in the streets of Moscow by police and cossacks. Many students were wounded and others arrested.

The Cumberland Telephone and Telegraph Company will increase its capital \$1,800,000 to provide for important Southern extensions.

A man and his wife have been arrested at Central City, W. Va., for dealing in "green goods."

Gov. Beckham will be asked to commute the death sentence of Murderer Bess, of Lexington.

Crude oil in the Kentucky-Tennessee fields suffered a reduction in price of five cents a barrel.

Marcus D. Grover, general counsel of the Great Northern railroad, is dead at St. Paul.

JAPANESE

Use Two Torpedo Boats In Operations

AGAINST THE SEVASTOPOL.

RUSSIAN TORPEDO BOAT SUNK AT PORT ARTHUR.

REPORT OF GEN. STOESEL.

Fight For Possession of 203-Meter Hill Most Remarkable in Siege of Port Arthur.

MANY OFFICERS ARE WOUNDED.

RUSSIAN TORPEDO BOAT SUNK

During the Fierce Japanese Bombardment on Saturday.

London, Dec. 19.—A special dispatch from Tokyo reports that the Japanese naval bombardment on Saturday sank a Russian torpedo boat at Port Arthur.

According to the Daily Telegraph's

Che Foo messenger from the Japanese

lines at Port Arthur, the Russians had

prepared around the fort at Pan Lung

a moat 600 yards long and thirty feet

wide, which they filled with petroleum

to a depth of several feet, then covered

with wood and straw. In the course

of an attack upon the fort early in

December the Japanese storming

party sank into this morass, where the

Russians fired with an electric fuse.

The fierce conflagration lasted all

night and day and hundreds of Japanese

were burned to death, but the second

night, the trench having dried up, the

Japanese advanced in small detachments,

protected by large wooden

shields, and engaged in a savage bayonet

fight. The Japanese, the report

continues, captured the position and

made prisoners of 152 Russians.

STOESEL'S DISPATCHES.

They Cover Operations From November

20 to December 10.

St. Petersburg, Dec. 18.—Gen. Stoessel's

dispatches to the Emperor, which were

received Friday night, were given

out to-day. The first, dated November

20, and is as follows:

"I am happy to inform your majesty

that on November 20, after an increased

bombardment, the Japanese attacked

one of the forts on the northeastern

front and leaped with a portion of their

forces on the bayonet and bayonet

MILES

To Be Highest Salaried Soldier In Country.

ROOSEVELT AND THE SOUTH.

PRESIDENT'S INTENTIONS GOOD, SAYS THOMAS NELSON PAGE.

NEXT TWO YEARS WILL TELL.

Tobacco Trade and Beet Sugar Interests

Oppose a Reduction in the Philippines Tariff.

AFTER OFFICE IN TENNESSEE.

Washington, Dec. 18.—[Special.]—

Secretary Taft has written Gov.-elect

Douglas, of Massachusetts, that, by

permission of the President, he will de-

tail Gen. Nelson A. Miles to be Adjutant

General of the United States at the State

House. Under this detail Gen. Miles

will be the highest-salaried soldier

in the country. His pay now as a

retired officer is \$8,250 a year. When

he assumes his new duties his compensation

will be \$11,000 the full pay of an active

Lieutenant General, and allowances, which

include \$100 a month for house rent,

four horses, forage and fuel, amounting

in all to about \$2,000. Besides all this,

which is equivalent to Gen. Chaffee's

salary, Gen. Miles will get \$3,500 from

the State of Massachusetts.

Will Deal Fairly With South.

"The President's attitude toward the

South was discussed in an interview

to-day with Thomas Nelson Page, who

quoting the President as saying:

"If the South will wait two more

years before passing judgment on me,

I believe I will be satisfied as to the

results of my administration."

"Dr. Page has always been a member

of the Democratic party, but he ad-

mirates the President greatly, and is a

close friend of the Executive. The

well-known author says that he is

entirely confident of the President's

policy toward the South, and that

he was much taken aback by the

hostility which some of his actions

aroused in this section. He is fully

persuaded that the South will be

treated as well as it can be, and

despite the fact that its vote

was against the President."

To Oppose Tariff Reduction.

Portions of the tobacco trade and

the beet sugar industry in the South

are vigorously opposing the Administration's

Philippines tariff reduction plans. For

the past six months a systematic cam-

paign has been conducted by the Na-

tional Cigar Leaf Tobacco Association,

alleging that the interests of every one

concerned were threatened by the pro-

posed reduction. As a result of the

campaign of education, the various as-

sociations are said to have formed an

alliance to fight the tariff reduction.

STUDENTS

Make a Demonstration In Moscow.

DISPERSED BY THE POLICE.

MANY WOUNDED AND NUMEROUS ARRESTS ARE MADE.

BLANK BULLETS ARE FIRED.

Many Shops Turned Into Hospitals,

Where the Wounds of the Injured Are Dressed.

RIOTERS NUMBER ABOUT 5,000.

Moscow, Dec. 18.—This city was the

scene of a revolutionary demonstration

to-day from noon till nearly evening.

Probably five thousand people actually

participated. Fortunately the agitators

did not succeed in drawing the work-

men from the factories into the dis-

turbance, and after many collisions,

the police firing blank volleys and

charging with their sabers, the crowds

were finally dispersed. Many were

wounded and more were arrested. As

far as is known none of the rioters was

killed. One policeman is reported to

have been fatally injured. Many on

both sides were roughly handled.

The authorities knew in advance

that trouble was impending, and many

houses along Tverskaya street were

especially guarded, and extra policemen

were on duty in the streets. Several

squadrons of mounted gendarmes

were concealed in the courtyards of

houses, ready for any emergency. The

crowds began to collect at midday in

Tverskaya street, students, young men

and women mixing with the general

public. The thoroughfare was soon

congested with a mass of moving hu-

manity, which converged on Strastnaya

square, where 3,000 persons assembled,

many armed with clubs and carrying

flags. The crowd, singing, moved to-

ward the palace of Grand Duke Ser-

gius, the Governor General of Moscow.

Trouble Begins In Earnest.

TASKS

BIG FIRE RAGES CLOSE TO LARGE TANKS OF GAS.

Hard Work of Firemen Alone Saves

Explosion in Chicago.

Chicago, Dec. 18.—The smash and door

factory of Philip Rittin & Co., located at

Crook and Halsted streets, was de-

stroyed

struction of the canal. It would require two years to construct this canal, and roughly estimated, its cost, including all ways, would be between \$15,000,000 and \$20,000,000, not including the power plant.

To Cost Over \$200,000,000.

Asked by members of the commission for an estimate of the cost of the various plans, Mr. Wallace said the best estimate that could be made at present would be on the estimate of the former commission of \$200,000,000 for a ninety-foot level canal. Figuring with this as a basis, the sixty-foot canal would cost \$225,000,000, could be open for traffic in ten years and fully completed in twelve years. The forty-foot level would cost \$250,000,000, open for traffic in twelve years and fully completed in fifteen years; the sea level canal would cost \$300,000,000, could be open for traffic in fifteen years and completed in twenty years.

Chairman Hepburn's questions developed that the estimate of time to build a canal was based on a ten-hour day, and that with the construction and the operation of the power plant, electric light sufficient to illuminate the whole of the Culebra cut might be had, thus making practical the working of two or more shifts, and shortening the time of construction. Mr. Wallace said that the excavation of this cut was the feature of the construction of the canal that took the time. He said:

Culebra Cut the Problem.

Upon the economical and efficient building of the material of the canal, it depends the cost and the time it will take to complete the canal. Every other question and every other problem connected with the entire work is subordinate and inferior to the problem of the excavation and disposal of the material from the Culebra cut; that is the principal problem of this work. The cost of the Culebra cut, the construction of the various locks, the construction of the power plant, and all other works are relatively less important.

Number of Employees.

Work is now going on in the cut. One American steam shovel and some of the French machinery being in operation. Fourteen American steam shovels have been purchased, one of which is being set up. The rate of work is estimated at the rate of one a month. During October 3,155 men were on the pay rolls of the commission. Of these 1,195 were laborers, receiving fifteen cents a day, 245 laborers receiving seventy-seven and one-half cents an hour, 775 were machinists, boiler makers, pipefitters, plumbers, carpenters and masons; 256 were Americans from the United States, whose compensation is paid in gold, and who fill positions as engineers, clerks and foremen. More laborers are to be employed in the immediate future. Mr. Wallace is somewhat doubtful of the practical working of the civil service order as recently applied to canal employees.

Proper Foundation for Dam.

Reverting again to the question of the Bohio dam, upon which depends the construction of the ninety-foot level, Chairman Hepburn asked Mr. Wallace which brought out a statement from Mr. Wallace as to the probability of finding proper foundation for the dam. Mr. Wallace said:

It is very uncertain. What will be found when more borings are taken is entirely theoretical. But the results of the borings so far taken at the various points investigated have been disappointing. The average depth bored without finding bedrock has been 50 feet.

As to foundation for the proposed Gamboa dam, which is required in all of the alternate plans, Mr. Wallace said:

At Gamboa the elevation of rock on the site of the proposed dam is at sea level, and numerous borings taken at this point, entering the rock twenty to twenty-five feet in depth, would indicate that at Gamboa there is no question as to the ability to find a satisfactory foundation for a dam at the maximum depth of sea level. The probable method of construction, say of the Gamboa dam, or even of the Bohio dam, would be the construction of a core of concrete and the filling in with the waste and tail of the dam. The Gamboa dam can be constructed cheaper than the Bohio dam on account of the fact that the foundation is nearer the surface and the dam site much nearer the Culebra cut.

Advantages of Sea Level Canal.

Answering a question about the operation of a sea level canal, Mr. Wallace said:

A sea level canal would be less expensive to maintain. It would be more economical, save time in passage through, and could be widened and deepened when required without interruption of traffic. Mr. Wallace said that he was not prepared to estimate as to time or cost of plan of a canal until he had completed taking the data he is now collecting. He has several parties of engineers at work along the line of the canal, each doing and instituting a study on a given problem, but he could not then tell when his recommendations as to the canal will be ready.

THOMPSON TO SUE FOR FALSE ARREST.

Acquitted of Embezzlement Charge, Broker Turns Upon Prosecutor.

Evansville, Ind., Dec. 18.—[Special.]—Charles R. Thompson, who was acquitted a few days ago at Petersburg, Ind., of a charge of embezzling \$35,000 worth of stock of the Evansville and Chicago Company and who was remanded to jail on another charge of perjury, has given bond and returned to Evansville today en route to Cincinnati and Philadelphia to look after business interests in those cities. He said he would return here at once and institute suit against former Congressman Arthur H. Taylor, of Petersburg, who prosecuted him, for \$50,000 for false imprisonment. He also said that he would prosecute Taylor for perjury, claiming that he could bring seven counts of this nature against him.

Thompson conducted a brokerage office in this city at the time the stock transaction took place. He was arrested in Philadelphia and confined in the Petersburg jail for seven months. During the trial Attorney General and Judge Thomas H. Dillon, the latter defending Thompson, engaged in a fist fight in the courtroom, after which Taylor was fined \$50 as the aggressor.

Taylor served in Congress a number of years ago as Democratic Representative from the First Indiana district.

MONSIGNOR SERAFINI IS TO BE MADE A CARDINAL.

City of Mexico, Dec. 18.—[Special.]—Monsignor Serafini, apostolic delegate to this country, will, it is said in clerical circles, be made a cardinal at the next consistory. The bestowal of the cardinalate on Monsignor Serafini will come as a reward for long services to the church, crowned by his latest work in this country, the economy and improving the discipline of the churches in Mexico. When he arrived here the church was partly made up of independent churches, and now the church is unified, with the archbishop dependent on the apostolic delegate. Monsignor Serafini has won the general good-will, and his elevation to a cardinalate will be popular in this country.

Killed a Saloonkeeper.

Springfield, O., Dec. 18.—Charles Dingeldine is under arrest here, charged with killing John Brown, a saloonkeeper. Brown endeavored to put Dingeldine and two other men out of his saloon last night, and during the altercation that followed, Brown was stabbed. He died later of his injuries. None of the witnesses will say that Dingeldine did the killing.

DISASTERS REFORMS

In the Wake of First Winter Storm.

SCHOONERS DRIVEN ASHORE. THIRTEEN THOUSAND MEN OLLEAN NEW YORK'S STREETS.

WHICH WERE DEEP IN SNOW.

New York, Dec. 18.—The snowstorm and gale which struck the coast yesterday afternoon and continued until the early hours this morning was the most violent that has occurred for several years. Reports from the Central Jersey and New England coast and from incoming steamers tell of furious gales and many disasters.

At Vineyard Haven, over fifteen schooners anchored in the harbor, were blown ashore early to-day and several others were damaged in collisions. Off Bayhead, N. J., life saving station the schooner Lizzie H. Brayton, bound for Providence from Baltimore, went ashore, the crew being rescued by the life savers.

The Cunarder, Umbria and the American liner St. Paul, both of which arrived to-day, reported heavy weather and adverse gales during the whole passage. The Anchor line steamer Astoria, bound for Glasgow, went ashore to-day in the lower bay, but later floated without injury and proceeded.

In the river and harbor traffic was for a while during the worst of the storm almost at a standstill. So heavy was the snowfall and so high the wind that the river boats' length ahead, and ferryboats and other craft proceeded at a diminished speed. No accidents of any moment were reported.

Seven cities, the snow, which began yesterday afternoon, fell almost without intermission until early this morning, by which time eight inches of snow had fallen. There was little interruption of traffic, 13,000 snow shovellers and 4,000 men being set to work as soon as the morning dawned.

At New York, the snow, which began yesterday afternoon, fell almost without intermission until early this morning, by which time eight inches of snow had fallen. There was little interruption of traffic, 13,000 snow shovellers and 4,000 men being set to work as soon as the morning dawned.

May Not Be Present When House Convenes.

ADJOURNMENT WILL FOLLOW.

DISPUTE AS TO PLACE FOR HOLDING INAUGURAL BALL.

NO WORK IN SENATE TO-DAY.

Washington, Dec. 18.—The exodus of members of the House from the city since the adjournment Friday indicates that the lower branch of Congress will be without a quorum when it meets to-morrow. Should this be the case, and should any member of the point on the floor of the chamber, the only thing that can be done is to adjourn from day to day until Wednesday, when the Christmas holiday recess until January 4 begins.

The question of where the inaugural ball shall be held is the only matter of legislation in sight in the House for the week. This will come up under suspension of the rules, on a motion from Representative Morrell, of Pennsylvania. The Senate has proposed the Pennsylvania Convention hall, but the congressional library. There are indications that a deadlock has been reached on the matter, and that when it is discussed again the Capitol building will be proposed as a compromise.

Senate May Adjourn.

Washington, Dec. 18.—The Senate will adjourn on Wednesday for the Christmas holiday. The Senate has not yet attempted to adjourn, but it is expected that it will do so at that time. A large number of the Senators already have left for their homes to spend the holidays, and there is an understanding that immediately after being called to order on Monday the Senate will adjourn for the Christmas recess.

The lowest temperature yet reached is 10 degrees below zero, Fahrenheit.

NAVAL OFFICERS REBUKED.

Russian Admiral Tells Them to Lay Aside Their Pens During War.

St. Petersburg, Dec. 18.—Admiral Bliffler, who has gone to Lissa to supervise the construction of a new fleet of war vessels still in the Baltic Sea, with a view to their dispatch in a matter of necessity to the Far East, in a witty and caustic letter to the press has administered a rebuke to those naval officers who have been engaged in a controversy in the newspapers relative to the question as to whether Rear Admiral Rozhdestvensky's squadron is strong enough to cope with the ships of Vice Admiral Togo without reinforcements. Admiral Bliffler expresses the affirmative opinion on this point, declaring that the Russian fleet is strong enough to cope with the Japanese ships. He says that the Japanese fleet is not strong enough to cope with the Russian fleet.

Chinese Face Suffering.

Headquarters Second Japanese Army, Pusan, Dec. 18, noon.—There is a probability that there will be a shortage of fuel and food among the Chinese this winter. Firewood is quoted at 30 per ton, and food is selling at three times its normal value, with the end of the supply in sight. The Japanese are paying Chinese laborers and are paying market prices for all the coal and supplies they purchase. The coal situation is unchanged.

Russian Officers Warned.

Moscow, Dec. 18.—Chief Consul Zheroff has issued a warning to the editors of the local press to insert nothing in the papers which might reflect upon the Russian government or the Russian army. He has also reminded the editors that all the censorship laws, though recently relaxed, are still in force, and will be executed rigorously in the event of any infringement of his order.

Sails for Vladivostok.

Shanghai, Dec. 18.—It is reported here that Commander Pelem, of the Russian fleet, is sailing for Vladivostok, which was recently sunk at Chefoo, with others of that vessel's crew, and sailed for Vladivostok on the British steamer Nigrita.

To Witness Port Arthur's Fall.

Tokio, Dec. 18.—Maj. Kuhn, U. S. A., who was military attaché with the Japanese army, has been reassigned to witness the fall of Port Arthur. Maj. Kuhn departed for Shinbashi to-day.

No Advances From Port Arthur.

Chefoo, Dec. 18.—There is no news from Port Arthur to-day.

SQUIRRELS IN TREES ON FOURTH AVENUE.

Live In Peace and Quiet, Fed By Residents and Undisturbed By Hunters.

Louisville is a town noted for many things out of the ordinary, and not the least of these is the number of squirrels that wander about in the city. They are everywhere, in the trees, on the roofs of houses, and in the streets. They are not afraid of man, and are not afraid of dogs. They are everywhere, in the trees, on the roofs of houses, and in the streets.

MINISTERS AND CHURCH MEN

GATHER AT FIRST PRESBYTERIAN CHURCH.

MUCH GOOD IS EXPECTED.

Plans for the big general revival to be held in Louisville during the month of February are rapidly taking form, and the Ministerial Association will leave no stone unturned to make the meeting a spiritual success. A meeting of the officers of the churches enlisted in the movement was held yesterday afternoon at the First Presbyterian church for the purpose of enlightening them in the methods and aims of this character of revival.

The large auditorium of the church was filled, and addresses were made by the Rev. W. W. Hamilton and the Rev. T. M. Hawes. C. C. Stoll spoke in behalf of the laymen. Eleven denominations have signified their intention of joining in the work and a good representation of the pastors and officers of these churches were present.

The Rev. W. W. Hamilton was the first speaker, outlining the work of the revival, and telling the workers what they should expect. He said that the revival is not a "standard high" and he said that the Christian people of any community should expect the blessings of the revival. He said that the revival is not a "standard high" and he said that the Christian people of any community should expect the blessings of the revival.

The Rev. T. M. Hawes was the second speaker, outlining the work of the revival, and telling the workers what they should expect. He said that the revival is not a "standard high" and he said that the Christian people of any community should expect the blessings of the revival.

The Rev. C. C. Stoll was the third speaker, outlining the work of the revival, and telling the workers what they should expect. He said that the revival is not a "standard high" and he said that the Christian people of any community should expect the blessings of the revival.

CONGREGATIONAL NOTES.

Restaurants, lunch counters and other places where food of various kinds is served are getting into the revival spirit during the past few months, and nothing shows the progress of Louisville better so accurately. It has been said that one can tell the size of a town and the business industry by the number of restaurants which are in it. Taking this as criterion, Louisville is more prosperous than ever in its history, and is growing rapidly. Within a few years not less than twenty-five new restaurants have been opened in Louisville. The business section of the city, from Broadway and Market and Jefferson streets are thick with lunch counters and restaurants, and the large majority of which come here within the past year. They are of all kinds, from the places where a table d'hôte meal is served for \$1 to the smaller and less ostentatious resorts, where one can get a square meal for a dime. Two years ago Louisville was not a place where one could get a square meal for a dime. Two years ago Louisville was not a place where one could get a square meal for a dime.

Doesn't Like Santa Claus Because He Comes In Bad Weather
Joe Puso, a Small Italian Boy, Associates Children's Patron With Winter Only.

"I don't like Santa Claus," said Joe Puso, a small Italian boy, who lives in a tenement on the river bank. He came to America four years ago with an uncle, and he is now a native-born American. He is a bright, cheerful boy, and he is very fond of his uncle. He is a bright, cheerful boy, and he is very fond of his uncle. He is a bright, cheerful boy, and he is very fond of his uncle.

ver. A fine musical recital will also be given at St. Patrick's Catholic church. The new altar lights were turned on for the first time.
